

## ADD OMEN TOKEN

**USE Phantom Wallet :**

### **1. Official Website (The Best Place)**

**The absolute safest way is to go directly to the source:**

<https://phantom.app/>

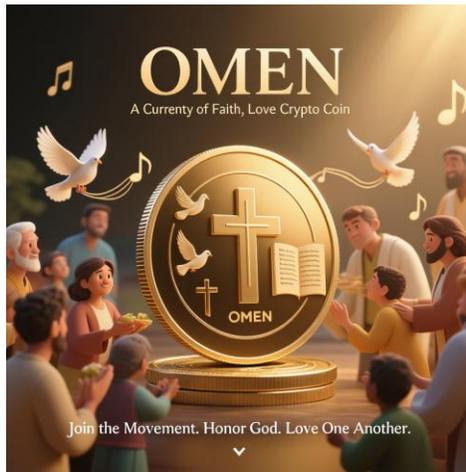

**This website will have direct, verified links to the official extension stores. Bookmark this page.**

### **2. Official Browser Extension Stores**

**Never download a browser extension from a random website. Only get it from your browser's official store.**

- **For Chrome, Brave, Edge, and other Chromium-based browsers:**  
[Chrome Web Store](#)
- **For Firefox:**  
[Firefox Browser Add-ons](#)
- **For iOS (iPhone/iPad):**  
[App Store](#)
- **For Android:**  
[Google Play Store](#)

### **CRITICAL SECURITY WARNING**

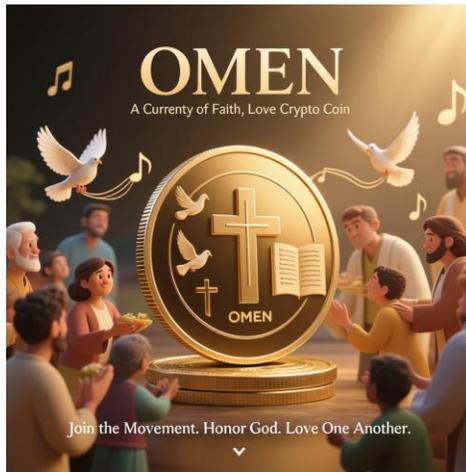

- **Double-Check the URL: Before you download, always make sure the website URL is exactly phantom.app. Scammers create fake sites with names to trick you.**
- **Check the Publisher: On the Chrome Web Store or App Store, verify the developer is "Phantom Technologies".**
- **Never Share Your Seed Phrase: Once you install Phantom, it will give you a Secret Recovery Phrase (usually 12 or 24 words). Write this down on paper and store it safely. Never, ever type it into any website or give it to anyone. Phantom support will never ask for it. Anyone who does is a scammer.**

#### **How to Install from the Chrome Web Store (Example)**

1. **Go to the correct link above for your browser.**
2. **Click "Add to Chrome" (or "Add to Firefox").**
3. **A pop-up will appear. Click "Add extension".**
4. **The Phantom icon (a ghost with a purple background) will appear in your browser's toolbar.**
5. **Click the icon to open it and follow the setup instructions to "Create a New Wallet".**

**You are now safe to use your Phantom wallet. You can use it to add your custom token by its mint address.**

## ADD OMEN TOKEN

### Step 1: Open Your Phantom Wallet

After installing Phantom, click the extension icon in your browser's toolbar to open it. Unlock it with your password.

You will see your main screen showing your SOL balance.

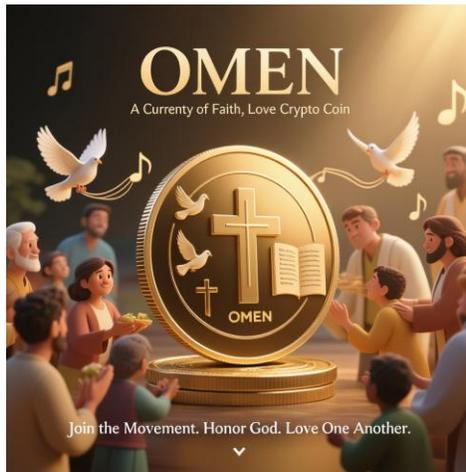

### Step 2: Find the "Add Token" Button

1. Look at the main screen of your wallet.
2. You will see a tab called **Tokens**. This is usually selected by default.
3. At the bottom of the tokens list, click the + Add Token button.

### Step 3: Paste Your Token's Mint Address

1. A new window will pop up.
2. Click on the "**Custom Token**" tab at the top.
3. In the big text box that says "Token Mint Address", you need to paste the unique identifier for your token.
4. **PUT the Mint Address:** G14BuTwCN3ahiJq2wVtw1hHJvx5hcSUjpZD15t2X1oxC
5. **Paste the address carefully** into the box. Double-check for any typos. Scammers sometimes create fake tokens with similar-looking addresses.

#### Step 4: Add It

1. After you paste the address, Phantom will automatically try to find the token on the blockchain.
2. If the mint address is correct and valid, the token's details (like its name and symbol) will appear below the box.
3. Click the blue **"Add Token"** button.

#### Step 5: See Your Token

The pop-up will close, and you will now see your new token (e.g., OMEN ) listed in your wallet with your balance.

- If you just created the wallet and no one has sent you the token yet, your balance will be 0.
- **To see a balance, someone (like the token creator) must send the token to your wallet's public address.**

#### Summary:

1. Open Phantom.
2. Click + Add Token.
3. Go to the **"Custom Token"** tab.
4. **Paste your token's Mint Address.**
5. Click **"Add Token"**.

That's it. Your token **OMEN** is now added to your wallet view.
